

DISASTER TECH AND PRATUS™ OVERVIEW

Disaster Tech is a veteran-owned public benefit company on a mission to accelerate decision-support technologies for situational awareness, operational coordination, and planning.

ABOUT PRATUS™

PRATUS™ by Disaster Tech, a trusted **Microsoft Premier Partner**, is a SaaS platform providing situational awareness while promoting unity of effort through robust coordination in complex environments. Commercial-born and defense-perfected, PRATUS is built on the everyday tools you work from, including Microsoft 365, Teams, and Copilot. The platform replaces manual processes and accelerates decision-making with AI-generated content and recommendations.

PRATUS CAPABILITIES

PRATUS is designed to unify coordination, enable real-time collaboration, and streamline response operations at scale. It runs on hyper-scale cloud infrastructure and supports data ingestion and operationalize from any source (e.g., proprietary, governmental, or open-source) without restrictions.

- Retains data in formats such as JSON, GEOJSON, and CSV
- Integrates with cloud-hosted tools via application programming interfaces (APIs)
- Built into Microsoft 365, Teams, and Copilot for easy setup and collaboration

INTEGRATED

Natively embedded into Microsoft 365 tools

CLOUD-BASED

Hyper-scale cloud infrastructure for large-scale coordination

BUILT TO SCALE

Scalable architecture supporting 100 to 100,000+ users

INTEROPERABLE

Ingests & operationalizes data from any source

INCIDENT MANAGEMENT

 **Unify Operations:** Integrate planning, logistics, and communications across agencies for coordination and execution.

 **Streamline Resource Allocation:** Track personnel, assets, and logistics dynamically to support rapid, informed decision-making.

 **Accelerate Planning:** Deploy structured, step-by-step planning tools to streamline response readiness.

 **Operational Intelligence:** Enable leadership with real-time operational intelligence through AI-powered technology.

UNIFY CROSS-ORGANIZATIONAL EFFORTS

PRATUS is natively integrated with Microsoft 365, including Teams and Copilot, delivering a unified platform for multi-agency coordination.

Coordinate Response

Coordinate across department, agencies, and organizations in a federated Teams tenant.

Multi-Agency Use

Auto-sync rosters and invite external stakeholders for seamless communication.

Secure Sharing

Share intelligence and documents securely within your Microsoft Teams channel.

SITUATIONAL AWARENESS

Accelerate Mission Decisions

Support strategic decisions with a unified operational picture driven by real-time intelligence.

Predictive Analytics for Strategic Planning

Leverage historical trends and modeling to inform proactive planning and post-event analysis.

Rapid Response Through AI Prompt Bank

Resolve operational queries instantly using tailored AI prompts aligned with mission priorities.

Transform Data into Intelligence

AI-powered AutoSITREPs integrate live feeds to drive coordinated decisions.

TRAINING & EXERCISE

The Training & Exercise Workspace centralizes and optimizes planning, execution, and evaluation. From one platform, leadership can oversee training operations with structure tools and actionable feedback loops.

1 Plan and report readiness

2 Gain continuous feedback

3 Use customizable templates

4 Identify gaps with AARs
