

Disaster Tech is a veteran-owned company on a mission to save lives and protect the environment through advanced decision-support technologies. Its solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that empowers organizations with situational awareness, unified logistics coordination, and AI-driven decision advantage in contested environments.

PRATUS® for Situational Awareness

U.S. Coast Guard Trusted

The U.S. Coast Guard uses PRATUS to modernize incident action planning and coordination, supporting operations across all hazards.

The platform was selected to protect:

FIFA World Cup 2026™

11 U.S. Host Cities

America250

Nationwide Events

Sail250®

Maritime Celebrations

Unified Platform

Unifies logistics, operational, intelligence data across agencies

ATO Deployment

Turnkey Authority to Operate reciprocity across DoW Cloud

OODA Loop-Driven

Faster risk assessment and coordinated sustainment

Cloud-Based

Hyperscale cloud supports 100 to 100,000+ users

Interoperable

Ingests and operationalizes data from any source

Open Architecture

Retains data in formats such as JSON, GEOJSON, and CSV

Enterprise Security

Data remains contained within your Microsoft Teams tenant

Fragmented systems and manual processes force leaders to make high-consequence decisions with delayed and/or incomplete data. PRATUS® eliminates these gaps by continuously analyzing authoritative data and reducing manual information gathering, delivering the real-time insights leaders need to act faster and with confidence.

PRATUS AI

Eliminate Manual Intelligence Gathering

Rapidly orient teams to evolving threats and operational conditions using AI-driven situational awareness.

- Fuses current, historical, & predictive data from 1,000+ authoritative sources
- Reduces Incident Action Planning process from 12 hours to 3 minutes
- Generates ICS-aligned IAPs powered by real-time operational data
- Identify and prioritize risks without manually assembling information
- Generate mission-aligned courses of action as conditions change
- AI models forecast power outages ahead of extreme weather disruptions

PRATUS AI COPILOT AGENT

Intelligence Assistance Where Teams Work

Unlock mission-critical intelligence, without leaving your secure Microsoft Teams environment.

- AI-powered analysis and answers—no manual data gathering
- Briefs and updates created instantly inside Microsoft Team
- AI-generated recommendations and mission-aligned actions
- Summarizes current conditions, risks, and recommended actions
- Translates chats and reports into ~50 languages

AI Decision Support

Supports command decisions while preserving human authority

Trustworthy AI

Customer data is never used for AI training & remains secure in your Microsoft Teams's tenant
