

# PRATUS

Disaster Tech is a veteran-owned company on a mission to save lives and protect the environment through advanced decision-support technologies. Its solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that empowers organizations with real-time insights and unified response capabilities.

## PRATUS® AI: AUGMENT HUMAN DECISION-MAKING

### CURRENT STATE

Across critical industries, situational awareness is fragmented across siloed systems and manual processes, forcing leaders to make high-consequence decisions with delayed and/or incomplete information.

### DECISION-MAKING AT CRISIS SPEED

By reducing manual information gathering and continuously analyzing authoritative data sources, PRATUS AI enables leaders to make faster, more confident decisions, no matter the incident.

**AI You Can Trust:** PRATUS AI never trains on customer data

**Enterprise-Grade Security:** Your data remains contained within your Microsoft Teams tenant

**CIO ATO Deployment:** Leverage Microsoft Teams' existing Authority to Operate

**AI Assistance:** Supports command decisions while preserving human authority

**Cloud-Based:** Hyper-scale cloud supports 100 to 100,000+ users

**Interoperable:** Ingests & operationalizes data from defense to commercial systems

**Translation:** PRATUS Copilot agent translates chats and reports into ~50 languages

### SOLUTION

PRATUS AI delivers authoritative, real-time situational awareness by automating data ingestion and synthesis into a Common Operating Picture, aligning response to NIMS and ICS operational standards.

### PRATUS AI

#### Eliminate Manual Intelligence Gathering

Rapidly orient teams to evolving threats and operational conditions using AI-driven situational awareness.

- Cut Incident Action Planning process from 12 hours to 3 minutes
- Synthesize current, historical, and predictive data from 1,000+ authoritative sources
- Continuously identify and prioritize risks without manually assembling information
- Generate mission-aligned courses of action as conditions change
- Automatically generate ICS-aligned IAPs powered by real-time operational data
- AI models forecast power outages ahead of disruptions from extreme weather events

### PRATUS AI COPILOT AGENT

#### Intelligent Assistance Where Teams Work

Unlock mission-critical intelligence, without leaving your secure Microsoft Teams environment.

- AI-powered analysis and answers—no manual data gathering
- Briefs and updates created instantly inside Microsoft Team
- AI-generated recommendations and mission-aligned actions
- Summarizes current conditions, risks, and recommended actions
