PRATUS

Disaster Tech is a veteran-owned company on a mission to save lives and protect the environment through advanced decision-support technologies. Its solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that empowers organizations with real-time insights and unified response capabilities.

PRATUS® MEETS YOU WHERE YOU WORK

CURRENT STATE

Disjointed systems, manual processes, and siloed communication slow coordination between teams, jurisdictions, and agencies limit real-time visibility and coordination during an incident or training exercise.

SOLUTION

PRATUS is the only all-hazards crisis management platform natively integrated into Microsoft Teams, delivering secure, unified coordination across public and private sectors.

CONNECT PEOPLE, DATA, & DECISIONS

Natively integrated into the Microsoft ecosystem—including Teams and Copilot, PRATUS delivers a single platform for incident management, training exercises, and cross-sector coordination.

Manage Crises, Cybersecurity, & Community Resilience

- Cut Incident Action Planning from 12 hrs to 3 mins
- Visualize incidents & resources from Esri ArcGIS map
- Improve readiness via post-event lessons learned

Augment Human Decision-Making with PRATUS AI

- Gain risk insight without manual data gathering
- Synthesize data from 1,000+ authoritative sources
- Combines internal docs to support decision-making
- Predict power outages before extreme weather events

Plan, Train, Assess, and Analyze Readiness

- Build training exercises with customizable templates
- Capture lessons learned and measure performance
- Turn training data into actionable recommendations

Enterprise-Grade Security: Your data remains contained within your Microsoft Teams tenant

CIO ATO Deployment: Leverage Microsoft Teams' existing Authority to Operate

Interoperable: Ingests & operationalizes data from defense to commercial systems

AI Translation: PRATUS Copilot agent translates chats and reports into ~50 languages

UNIFIED COORDINATION

Integrated into the Microsoft ecosystem, PRATUS unifies coordination across agencies, teams , and jurisdictions.

- → Federated Microsoft Teams connects .mil, .gov, and .com stakeholders in a single workspace
- → Provision an incident workspace in one click, synchronizing rosters, channels, and documents
- → Collaborate, get alerts, and assign tasks without switching platforms
- → Share intelligence and situation reports directly in Microsoft Teams
- → Reduce training time by leveraging an interface your team is already familiar with

BUILT ON TRUSTED INFRASTRUCTURE

Built on Microsoft Azure for secure, reliable, always-on operations – scalable for any event.

- → Deployed in Azure Commercial and Azure Government clouds for compliance
- → Cloud-based architecture supports 100 to 100,000+ users, scaling to the needs of the incident
- → Secure AI services, ensuring enterprise-grade security and data protection
- → Containerized architecture built on Azure Kubernetes Services (AKS)
