

PRATUS

Disaster Tech is a veteran-owned company on a mission to save lives and protect the environment through advanced decision-support technologies. Its solution, PRATUS®, is a Software-as-a-Service platform and **Microsoft Premier Partner** that empowers organizations with real-time insights and unified response capabilities.

PRATUS® TO UNIFY COORDINATION FOR THE OIL & GAS SECTOR

CURRENT STATE

Fragmented tools slow energy operations as data scattered in texts, Teams chats, and ICS 214 logs creates silos, delays decisions, and heightens risk during critical incidents.

INCIDENT MANAGEMENT WORKSPACE

Situational Awareness

- Real-time situational awareness with AI insights
- Timely updates on weather, traffic, risks, and events
- Unified operating platform for cross-sector alignment

Collaborative Incident Activation

- Rapid incident activation with secure collaboration
- Quick event queries via PRATUS Copilot Agent

Resource & Response Management

- Optimized resource allocation and tracking
- Customizable action plans and templates
- Lessons learned analysis for improved readiness

SOLUTION

PRATUS unifies chats, logs, and documents in one platform, integrated with Microsoft 365 for real-time insights, AI-driven decisions, and faster, smarter energy incident response.

PRATUS + MICROSOFT + ESRI

- ✓ Connect organizations across .mil, .gov, and .com
- ✓ Share intelligence and insights securely in Teams
- ✓ Auto-sync rosters and invite external stakeholders
- ✓ Familiar interface for faster deployment and training
- ✓ Delivers shared operating platform via Esri ArcGIS
- ✓ Provides map-based situational awareness

PRATUS AI

- Fuses 1,000+ data sources to speed decisions
- Combine data with AI predictive analysis
- Gain instant answers through AI chatbot
- Cuts Incident Action Planning to 3 minutes

WHY PRATUS

- Ingests user plans, procedures, and documents to support decision-making
- Real-time situational awareness with AI to augment human judgement for faster decisions
- Native Microsoft 365, Teams, and Copilot integration for unified coordination
- Automated resource tracking and reporting to reduce manual work
- Scalable, secure platform for collaboration between operators, regulators, local responders, and more
- PRATUS AI models never train on customer data, keeping private data private
- Intuitive, easy-to-use interface with automated workflows for rapid deployment

Additional services, such as training, ICS coaching, responder support, and 24/7 assistance, are available to support your needs.

TRAINING & EXERCISE

- Plan and report readiness
- Gain continuous feedback
- Use customizable templates
- Identify gaps with AARs

EXPLORE HERE

Cloud-Based: Hyper-scale cloud supports 100 to 100,000+ users

Interoperable: Ingests & operationalizes data from any source

Open Architecture: Retains data in formats such as JSON, GEOJSON, and CSV

Translation: PRATUS Copilot agent translates chats and reports into ~50 languages
